Departure of Steamers.

FOR COLLINGWOOD AND THE EAST.
The Collingwood Line of screw steamers leave—one every day, from Dousman's dock, foot of East Water st., connecting at Collingwood with cars from the East.

FOR BUFFALO.
Screw steamers, with good accommodations for passengers, leave the different transportation docks every day for Buffalo.

FOR PORT WASHINGTON, &C.
The Steamer Gazelle leaves Johnson & Olmsted's Dock at 8 o'clock in the morning, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR CHICAGO, &C.
The steamer Traveller leaves Johnson & Olmsted's Dock every evening, at 9 o'clock, for Chicago and Intermediate ports.

Foreign News.

The commercial advices by the *Hungarian* are favorable, and will be likely to give additional firmness to breadstuffs on this side of the Atlantic. At the date of the steamer's departure, wheat was firm in the Liverpool market at the previous advance, and corn had improved 6d. per quarter. In the London market wheat had advanced. It has been reported on apparently reliable authority that the crop throughout Europe is not thrashing out as was expected, and that the actual yield of wheat in Great Britain, France, Russia, will be very much below an average. The present condition of the English markets would seem to indicate that there was some ground for this statement. The hasty, and rather imprudent conduct of General HARNEY in regard to the disputed Island of San Juan, has, as might have been expected, excited some severe comments from the English press.

La Mountain Safe!

Professor LA MOUNTAIN, the daring Æronaut, who made a balloon ascension at Watertown, New York, on the 22d ult., and was supposed to have been lost, has turned up safe and sound in the wilderness of Canada West. He and his companion were four days without food, and were only saved from starvation by the Indians, who conducted them out of the forest. This romantic adventure and "perilous escape" of LA MOUNTAIN, will, no doubt, serve to increase the mania for aeronautic fame.

California Election.

California is not yet redeemed. By the overland mail to St. Louis, we have information that the administration Democracy have carried the State, against the united efforts of the Republicans and Anti-Lecompton Democrats, by about *twenty thousand majority!* MILTON S. LATHAM, Lecompton Democrat is elected Governor. In San Francisco, however, the opposition carried the day by a handsome majority.

The Grain Trade.

The week opens with large receipts and a pretty steady wheat market, prices being about the same as those ruling at the close of last week—76a77 for No. 1 Spring and 79a80c for Extra. Receipts yesterday were better than seventy thousand bushels, including flour, namely: 2,983 bbls flour, 62,625 bushels wheat: and shipments nearly eighty thousand, namely: 3,768 bbls flour, and 60,300 bushels of wheat. According to the telegraph flour was 5c. better, wheat firm and *heavy* at New York yesterday. The Buffalo market was reported steady, but not active, with increasing receipts of wheat.

The Political Campaign.

Correspondence of the Sentinel,

JUNEAU, Oct. 3, 1859.

EDITOR SENTINEL—*Dear Sir:*—I have attended the discussion of the two candidates for Governor, at two of their meetings—one at Horicon and the other at Beaver Dam, and assure you so far as those two meetings will serve to represent the present canvass, Governor RANDALL will lose nothing, but gain much by them; as at those meetings it was apparent to all that Mr. HOBART is no match for the Governor. I have also heard our candidate for Lieutenant Governor, when here, speak of the relative position of the two parties. He made a very fine speech; one which proved to all who heard him that he had but few equals in political speaking. He made a very favorable impression upon all who heard him, as far as I have been able to learn. It is conceded by all that "he will do to travel." Respectfully yours,

JAMES McFARLIN.

More of the Dust from Pike's Peak—$65,000 in a Week.

ST. LOUIS, Sept. 30.

The St. Joseph *Gazette* of the 28th announces the arrival of Mr. GREGORY and four others direct from Denver City; they came through in eighteen days, and bring over $20,000 in dust—this makes about $65,000, which has arrived on the border within a week.

ILLINOIS POLITICS.

The National Democratic Central Committee have stolen a march on the Douglasites, by issuing a call for a State Convention, to be held at Springfield on the 10th of January next, to appoint delegates to the Charleston Convention.

SENATORIAL NOMINATION.—The Republicans of the North-western Senatorial District have nominated CHARLES B. COX, of Pierce County, as their candidate for State Senator. The Prescott *Transcript* thus warmly endorses their nomination:

Charles B. Cox, our candidate for the State Senate, is an "old settler," and a worthy man. We have known him intimately for several years; and can say that his character gives the fullest assurance, that if elected to the State Senate, he will prove an honest and efficient legislator.

CAPT. LOWE of the American barque Helen Mar, who is under examination at Bombay on a charge of murdering his wife, was one of the rescuers of the survivors of the wrecked steamship San Francisco.

RESTORATION OF LANDS TO MARKET.—The notice of Hon. Mr. Wilson, acting Commissioner General Land Office, will be found in the present number. All the lands hitherto reserved from sale on account of the grant to the State for the Fox and Wisconsin River Improvement, are now restored to market.

The sales at the Stevens Point Land Office to be on the 7th of November next.—*Wisconsin Pinery, Sept. 30.*

THE KINGSTON REGATTA.—It was the Ripple and not the Rivet which came in second at the Regatta on Wednesday. The Coral, which was first, and also the Ripple, are American boats, and they completely distenced the Canadians. Our yachtsmen must improve both their boats and their seamanship, or else knuckle under to Brother Jonathan.—*Toronto Globe, Sept. 30.*

THE CITY.

The Consequences of One Act.

Some two or three months ago a respectable Hollander with his family arrived in this country with letters of introduction to respectable men in Boston. He was a man of some education and natural ability, and of good standing among Swedenborgians.—He immediately formed many friends in Boston and was regarded as a conscientious warm-hearted man, worthy of their best endeavors. Through the exertions of his friends he was placed in a way to earn a comfortable livelihood in Ohio, and furnished with fresh letters he started with his wife for Cleveland.—Here he established himself. But some unforseen misfortune suddenly deprived him of his income, and through the exertions of other new friends he obtained an agency or Colportuerage in the Swedenborgian Society and started out alone for the west. After a tour of several States which hardly proved remunerative enough to keep him in clothes and food, and a portion of which remuneration was statedly forwarded to his wife, he arrived in Milwaukee with very poor prospects and a heavy heart.

While here, the tempter beset him, and in an evil hour he dishonestly appropriated a paltry sum of money while visiting a house in the Third Ward. There is every reason to believe this was his first downward step, and in a few days he appeared at the Police Court, the misreable wreck of the former man, his intelligence hidden by shame and contrition, and the whole bearing of the man pitiably deformed to the culprit. He was sent to Waupun for a year, and is now eking out his captivity among the professional law-breakers of the State. Not a word has been transmitted to his wife; she either believes him dead, or in some worse condition where he cannot write to her; but never guilty of theft, never!

A gentleman of this city, who recently made some enquiries about him, while on a visit to Waupun, learned from the Warden of the prison that his conduct ever since he arrived there has been that of extreme penitence and sorrow, and that he has refrained from informing his friends or family of his guilty whereabouts only through a sense of intolerable shame.

He commissioned this same gentleman to apply at a small third rate boarding house on Main street and redeem his baggage consisting of books, &c., worth $15, and held as security for six dollars board. On making enquiry at the hotel, the gentleman was informed that the inmates knew nothing whatever of the things, that they did not know what became of them, &c. They, no doubt, having been appropriated immediately after the unfortunate man's conviction.

THE DETROIT AND MILWAUKEE R. R. STEAMERS.—During the past week, our noble steamships, the *Detroit* and *Milwaukee*, each crossed the Lake twelve times, making their regular trips on time, and carrying good loads of passengers and full freights. All who have tried these fine vessels are warm in praise of their speed, staunchness, comfortable accommodations and excellent management. Their usual time of crossing is about *six* hours, though they have repeatedly made the trip in five and a half, and can, if need be, make it in *five*. Freight by this route, comes through from New York in four to five days and passengers and the U. S. mail *in less than two days*. The capacious warehouse and dock of the Company, at the foot of Milwaukee street, were filled with merchandize, yesterday, which had just been received from the East and to-morrow will be on its way to Western and Northern Wisconsin, Iowa and Minnesota.

A FINE BUILDING.—Milwaukee Lodge No. Two, I. O. O. F., the oldest Lodge in the State, are erecting and have nearly ready for occupancy, a beautiful building on Market street, adjoining the Prescott House. The structure is sixty by twenty feet, with Hall and ante-room on the second floor, and store room on the ground. The Hall or Assembly room is 45x19, 15 feet between ceilings, and is fitted off in a chaste and appropriate manner. The ante-room, at the head of the stairway, is 15x15, overlooks the street and leads to the main room by a convenient entrance. The exterior of the building is highly ornate. Beneath a very heavy cornice and between the windows are the emblems of the order in *bas relief*. The entire construction of the building has been under the superintendence of WMS. LEE, and it is contemplated to finish it so that the dedication may take place this month.

EXTRA FINE BOOK PAPER.—As we sat down at our table this morning, there was spread out over it a full sheet of that fine pure white book-paper, which NOONAN & MCNAB have just began to manufacture, at their mills, in this city—the first paper of this superior quality ever made in the northwest. We have compared it with the finest article from the Massachusetts mills, and found it not an atom inferior. NOONAN & MCNAB are now ready to supply it in any quantity.

THE BALLOON ASCENSION.—Yesterday there was too much wind, and the balloon did not go up. But we are informed that it will rise the first favorable opportunity. We understand that LINCOLN of the Commercial College has spoken for a seat in the aerial car, to distribute his circulars to the gaping world beneath, while sailing through the clouds.

MICHIGAN STATE FAIR.—The Michigan State Fair takes place at Detroit this week. HORACE GREELEY, of the N. Y. *Tribune*, is to deliver the address. The Detroit and Milwaukee Railroad Company offer to take passengers to Dertoit and back, at *half fare* all through the week. The opportunity is a good one for all who wish to try the new route and visit the Michigan State Fair.

A GOOD LOAD.—The steamship "Milwaukee," of the Detroit and Milwaukee Railway route, which left here at 8 o'clock last evening, took 250 barrels of flour, a large amount of other freight and nearly a hundred passengers. It was a lovely night to cross Lake Michigan.

ELECTION—YOUNG MEN'S CHRISTIAN ASSOCIATION.—The regular monthly meeting of this Association will be held this Tuesday evening, at their Rooms in Bowman's Block, Milwaukee street next to the Custom House, at 7 1-2 o'clock, at which time the election of officers for the ensuing year will take place.

J. L. DAVIS made the best display of silks at the State Fair. The goods were selected at random from his stock and those who admired the case of silks in question, so much, will find a large assortment of the same style of goods at his extensive and well known ware-rooms on East Water street.

M. W. & B. V. R. R.—It will be seen by a notice in our advertising columns, that on and after to-day, all freight, merchandise, &c., for points on the road will be received at their old Depot, near the freighthouse of the Mil. & Miss. R. R.

IN A NOTICE of RICKEY'S Threshing Machine which appeared in the *Sentinel* some days ago, we omitted to state that D. M. MISNER, of Milwaukee, was the manufacturer.

ECONOMY IN THE USE OF FUEL.—Mr. F. SHAW, in his patent gas cooking fixtures has proved that the ordinary coal gas, which we have been in the habit of using only for illuminating purposes, is equally adapted to all the ordinary purposes of combustion to which we apply coal and wood. WALWORTH, HUBBARD & CO., of Chicago, had on exhibiton at our State Fair a number of ingenious little sheet iron stoves, into which a gas jet was introduced by means of a flexible tube; the orifice of the tube was surrounded by a cylindrical piece of perforated tin, which, on the gas being ignited, was filled with a bluish flame, evolving an intense heat, and performing the various culinary duties to which it was brought, with a celerity and satisfaction somewhat astonishing. This invention is of great importance. If gas can be made to heat our parlors, cook our dinners, and heat our water without the usual accompaniment of smoke and dust and ashes, and at a ridiculously low figure, the world is indebted to Mr. SHAW for telling them of it. And, as we have said before, the exhibition of WALWORTH & HUBBARD completely proved the feasibility and utility of the thing. Nor is there anything wonderful in the invention. Like all practical improvements, it is the simplest thing in the world. The inventor uses the oxygen of the atmosphere; he supplies the gas jet with just enough atmospheric air to make it double its volume of heat, without burning the carbon to produce a light, and by a very easy adaptation of structure so conducts the heat in one case that it performs the feat of roasting or broiling, or heating a flatiron, unattended with any radiation, and in another case by radiation alone, heats a room, leaving no odor, no ashes, and sending forth no smoke: at the cost of a little over half a cent an hour.

There is something very pleasant in the contemplation of having only to touch a match to your stove at any time in order to produce a comfortable atmosphere, and the pleasantness of the thing is surely not lessened by the fact that the warmth is produced at so inconsiderable an outlay. To the female portion of the community this invention is as much a god-send as the sewing machine.—Those indefatigable housewives who stand over the raging stoves on ironing days, and cannot boil their tea-kettles in August without raising the temperature of the house to a 100 degrees may throw aside any old fogy notions which cling to them, and hail the gas-heating invention with the *eclat* it deserves. The exhibition of these different stoves at the Fair was attended with many illustrations daily of their practical working order. In one instance a peach-pie, a number of patties and a beef-steak were cooked, and a flat iron heated in less than nine minutes, costing for gas NINE MILLS.

The skeptical may even yet be convinced of the perfect adaptation of this invention to household purposes, by calling at SHEPARD'S hardware store, where the agent is still exhibiting them to the public.

P. HARRIS; Spring street M. E. EDWIN HYDE, A. J. W. PRICE; St. Paul's, HARVEY TERRY, FRANK D. SHEPARD; St. James', R. J. CHIVAS, F. A. ROOT.

The gentlemen nominated are among our principal and most reliable business men.—With such men for officers, the Association must prosper.

A NATIONAL OPERA.—As will be seen by an advertisement in another column, the citizens of Milwaukee are about to have the honor to witness the *first* performance of the *first* national American opera produced in this country. It is entitled—"Mohega, the Flower of the Forest."—*Free Democrat.*

"*Mohega*," will not be the first American opera. FRY'S favorite opera of *Leonora* is an American production, and *L'Spia*, brought out at the New York Academy of Music, three winters ago, is not only an American but a National opera, the plot being founded on the story of ENOCH CROSBY, the American spy—the same character that COOPER dressed in additional romance under the title of *Harvey Birch*.

BOY DROWNED.—JOSEPH MURPHY, a lad about thirteen years of age, and who lived on Plankinton's Addition, in the Ninth Ward, has been missing since last Tuesday. Sunday a body was picked up in the river at the foot of Detroit street, which on examination proved to be that of MURPHY. An inquest was held yesterday morning, and a verdict of accidental drowning rendered.

A CALL EXTENDED.—The congregation of the Third Street Presbyterian Church in Dayton Ohio, have unanimously extended a call to the Rev. S. G. SPEES, late of this city, to become a pastor of that Church.—The meeting was the largest ever assembled in the church for that purpose.

THIS morning at 10 o'clock, CALEB WALL commences the extensive sale of furniture at his Auction Room, No. 146 East Water St. Ladies are invited to attend. The sale takes place on the second floor.

THE LAST OPPORTUNITY.—This (Tuesday) evening there will be one more sale (and the last,) of the fine collection of paintings, which have been on exhibition at the Newhall House the past week. These paintings are all very fine, some preeminently so, and those of our citizens who have a taste for such things will certainly find it to their advantage to attend this last sale. Nothing adorns a residence more than fine paintings, and with a knowledge of that fact, people would do well to secure for themselves a choice one from those now offered for their consideration, for they can seldom obtain finer specimens, and possibly never at so low prices. At the last sale many of our best citizens purchased largely, and were much pleased with the purchases—significant proof that the pictures have real merit. Several valuable paintings that have not heretofore been displayed will be offered this evening, at 7 1-2 o'clock.

THE MILWAUKEE FIRE DEPARTMENT.—It would do the large hearts of the Milwaukee Firemen good, if they could only hear the one-half of what is said of them by the Firemen of Madison. From what we hear members of No. 2 say, wearing a red shirt in their company at the State Fair must have been a pleasant privilege. The several engine houses were plentifully supplied with substantial refreshments, and when any of the men straggled off on their own account to drink a glass of beer, a Milwaukee Fireman always appeared when paying time came and declared that their money was counterfeit, and that they had better pocket it without delay, or else be forced to drink a keg of lager beer through the bung hole. The treatment that all the fire companies from abroad received from the Fire Department and Firemen of Milwaukee, was of the most generous and whole-souled character and we cannot listen to the instances of it that our firemen seem to take a delight in giving, without feeling a wish to shout with heart and voice, "Nine cheers for the Fire Department of Milwaukee and its gallant firemen."—*Madison Patriot.*

REPORT of the Judges on the trial of Hook & Ladder Companies, on the 20th of Sept., for the prize of the Mayor's Trumpet. The Companies were to run a half a mile set up a Ladder and send an axman to the top of the Ladder. By the drawing of lots for turn to run, No. 2 drew the first and No. 1 the second turn. The time made by first Company (that is No. 2) was two minutes and fifty-two seconds, and the time by the second Company, (that is No. 1) two minutes and fifty-five seconds, which left No. 2 winner by three seconds.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Additional by the Hungarian.

FARTHER POINT, Oct. 3—3 P. M.

The Coroner's investigation into the cause of the explosion on the Great Eastern had terminated. The verdict of the jury was as follows: We find that the deceased came to their deaths from injuries received from steam, hot air and water, in consequence of the bursting of a jacket attached to the fore-mast funnel of the Great Eastern steamship, and that said bursting was caused by the bursting of a tap connected with the syphon attached to said jacket, in conjunction with which, cut off the feed from the water casing to the boilers; but there is no evidence before the jury to show by what person or persons the tap was shut off, and the jury further express their opinion that said taps are highly dangerous when placed in such positions, and that sufficient caution was not used by the engineers. The verdict is simply accidental death. It is considered likely that the accident will give rise to questions of law.

Sir James Stephens, Professor of Medical History at Cambridge, and former Under-Secretary of the Colonies, is dead.

The Manchester Guardian, in an editorial on Gen. Harney's occupation of San Juan, says the American General seems to have been guilty of one of those acts of piracy by which lawless representatives of the United States are accustomed to settle disputes with weaker and more barbarous neighbors, but which it is time they should be taught they cannot safely indulge in against a powerful and civilized nation. The article concludes as follows: We trust that the Government of the United States will speedily disavow the act of the officer, otherwise the English Government will be forced to take immediate steps for the vindication of the honor of her country, and showing the licensed ruffians of the federal army, that they must not appropriate British territory as coolly as if they were simply cutting off another slice of Mexico.

The London Post characterizes Gen. Harney's conduct as totally opposed to the first principles of public law, and hopes the American Government will disavow it.

The British Government is said to have made a contract for a cable 1,200 miles in length, to be laid from Falmouth to Gibraltar, in June next—this is to be followed by a cable from Malta to Alexandria—thus giving England an independent line, free from Continental difficulties.

The speedy completion of the Indian line, and its extension to China, is loudly called for.

In view of the Chinese difficulties, the Daily News announces that Lord Clyde will retire from the command of the Indian army at the end of the year, and be succeeded by Gen. Sir Hugh H. Rose, who played a prominent part in the suppression of the rebellion.

Gen. Mansfield is to be Commander-in-Chief of the Bombay army.

The Independence Belge says Lord Cowley and Count Walewski have been commissioned to arrange a basis of co-operation between England and France in the prosecution of the Chinese war.

Three ninety-one gun ships were under orders for foreign service at Portsmouth. Four gun boats were being prepared with all haste for China. The utmost activity prevailed at Woolwich and elsewhere in getting of ammunition, &c.

Money continued abundant and in moderate demand. Gold continued to flow into the Bank in large quantities. Arrivals from America and Australia having been large.

FRANCE.—There was quite a gathering of people at Biarietz. In addition to the King of Belgium, Lord Cowley, Count Reiset, and Count Walewski had gone there, and Count Cavour and the Duke of Malakoff were expected there.

The camp of Chalons had been suddenly given up.

It was rumored in Paris that the Emperor had requested the King of Sardinia to refuse to the deputation from the Popish Legation their request for annexation to Piedmont.

The Paris correspondent of the London Times says, if the reports of the day may be credited, there is a possibility of the settlement of the Italian question, which should satisfy all parties, and the general impression was that the political horizon was soon to be clearer than for some time past.

The Constitutionel had given prominence to an editorial, in which it calls on England to side with France in the Italian question, and the article was regarded as an appeal to England to assist diplomatically in extricating the Emperor from the difficulties engendered at Villa Franca.

A ship of the line, steel plated, to be called the Magenta, and the largest vessel in the French navy, had been commenced at Brest.

The Moniteur contains the following announcement in regard to rumors of a modification in the press law—several papers have alluded to a decree which it was supposed would appear, to modify the law of the press. This news is without foundation. In France the press is free to discuss all acts of the government.

The government of the Emperor will not deviate in the established system in allowing a field sufficiently large for discussion and controversy. It presents on the other hand the disastrous effects of falsehood, calumny and error.

The Moniteur in a subsequent issue published a circular from the Interior Department to the prefects, instructing them as to their duties regarding the press.

It was reported in Paris that France would co-operate with Spain in her expedition against the Moors.

Rumors prevailed of a Ministerial crisis, including the retirement of the Duke of Padone from the Ministry of the Interior, and M. Chasseloupe Lambert from that of Algeria and the Colonies.

There was no improvement in French commercial affairs.

It is asserted that the conclusion of the harvest shows that the crop has been twenty per cent. less productive than last year.

Flour and wheat had slightly advanced in Paris, and also in most of the provincial markets.

The silk markets were stagnant. Trade was better at Lyons under orders from America.

The vintage accounts were generally satisfactory. A plan had been prepared for arming the coast from Antiles to Portvendres.—The French outposts on the frontiers of Morocco had been several times fiercely attacked by native tribes, but they had been repulsed. The government of Morocco was not included in these attacks.

The Zurich Conference had had a complete suspension of intercourse for several days, but on the 20th the representatives of France and Austria had a conference lasting three hours.

The government of Tuscany had notified the plenipotentiaries of the Grand Duke to evacuate the palace within three days. In case of the non-compliance, the property of the Grand Duke was to be sequestered.

There had been reports from Rome that the Pope's health was so shattered that he would probably soon resign. The latest accounts say he had perfectly recovered.

RUSSIA.—The Invalide Russe, publishes a telegram confirming the reported capture of Schamyl, after a victorious assault by the Russians at Gunit. Schamyl's sons and family were either captured or killed. The Russians took five cannon, and their loss did not exceed one hundred men.

TURKEY.—A conspiracy to assassinate the Sultan had been discovered. Two hundred persons had been arrested: among them the Pasha of Albania, who was apparently the chief. Some troops are suspected of participating. The affair originated with a fanatical party.

Washington Matters.

WASHINGTON, Oct. 3—3 P. M.

The most intimate friends of Senator Douglas authoritatively deny the truth of the prevailing rumor, that Douglas contemplates replying to the late review of his Harper Magazine article, and further say that none is to be published with his sanction or supervision.

The following officers have been ordered to the steamer Iroquois: Commander, Captain Palmer, Lieut., Hager Hart, and Houston, Purser's Clerk.

European Harvest.

NEW YORK, Oct. 3—3 P. M.

The money article of the New York *Herald*, says a private advices from England state the crop both in that country and throughout Europe, with the exception of Prussia, is not threshing out as was expected, and that the actual yield of wheat will be very much below an average in Great Britain, France, and Russia, under the circumstances considering the reported spread of potato disease.

NEW YORK, Oct. 3—3 P. M.

A conflagration occurred yesterday in Sing Sing Prison, destroying the file and augur shops and the dye house. The loss is $8,000.

More Fillibustering.

PHILADELPHIA, Oct. 3—9 P. M.

A special Washington despatch to the North American says it is well known in fillibustering circles here, that another formidable expedition is preparing against Nicaragua.—A part of the expedition has already succeeded in leaving New York and Charleston, but the parties will make no suspicious demonstrations until the plans are all matured and the full force is upon the spot, ready for action. Col. White, now in New York, will have an important position in the new crusade. These facts can be implicitly relied upon, and our Government should be awake to their importance.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Later from California—Result of the Election.

ST. LOUIS, Oct. 2—9 P. M.

The overland mail with dates to the 9th arrived to-night. Since the sailing of the steamer on the 5th, business had been a good deal interfered with by the State election, and but light demand for goods for the country has been experienced. A number of arrivals have occurred from Atlantic and foreign ports, from which few sales are reported.—Market remains firm; quotations unchanged.

The British ship, Forest Monarch, which was wrecked on the 24th ult., was on her way from San Francisco to Puget Sound.

The State election resulted in the undoubted choice of Milton S. Latham, Lecompton Democrat, for Governor, by a very large majority, perhaps 20,000. Scott and Burch, probably elected to Congress, although their opponents, Baker and McKibben, who received the united vote of the Republican and anti-Lecompton parties, have the benefit of slight doubt in their favor. The anti-Lecompton candidate for State Printer, who was also supported by the Republicans, has a slight chance of election.

With three possible exceptions the Democratic Lecompton State ticket is elected by an increased majority. Both branches of Legislature are largely Democratic. It will be about a week before the official returns are made.

The People's Reform Ticket, being the regular succession of that inaugurated in 1856 by the Vigilance Committee, has again triumphed in San Francisco by a handsome majority.

Washington Matters.

WASHINGTON, Oct. 3—9 P. M.

Although bids for the army transportation have been opened, it is understood that no contracts will be made for some days.

The new Commissioner of the Land Office, an Ex-Member of Congress from Tenn., will enter upon his duties next week.

The President will leave Washington to-morrow or Wednesday for Wheatland for a brief sojourn.

Mr. Lisbon was to-day formally received by the President as Minister from Brazil.

The Post Master General has returned and resumed his duties to-day.

Additional reports have reached this city from respectable sources, of a contemplated Fillibustering invasion of Central America.

If it should appear that an expedition for that purpose is in progress, every means will be taken to intercept it. Orders heretofore issued by Government on that subject are in full force.

The Great Cricket Match.

NEW YORK, Oct. 3—9 P. M.

The cricket match between the 11 of all England and 22 of the United States, commenced this morning at Hoboken, the U. S. players being at the wickets. The weather was all that could be wished and the ground was in capital order. It is estimated from 6,000 to 7,000 persons were on the ground at any one time during the day. The following is the score:—22 of the U. S. in the first innings scored 38.

At about 3 o'clock all England eleven went in, sending Carpenter to bat. After long and steady play, Carpenter was caught out by Senior. Wisden took his place and was disposed of for three. Parr succeeded him, and with Hayward remained at the bat, when the stumps were drawn at 5 o'clock.

Explosion of Gas and Burning of Lager Beer.

NEW YORK, Oct. 3—3 P. M.

A gasometer exploded last night in James Lightbody's machine shop in Jersey City, while Dr. J. S. Smith was engaged in testing a new invention. Thos. Carswell, foreman of the shop, was burned to death, and several others badly injured.

This evening the immense lager beer brewery of Messrs. Sheyers was entirely destroyed by fire. The loss is estimated at $250,000, upon which there is an insurance of $145,000.

NEW YORK, Oct. 3—9 P. M.

The evening popers put the loss by the burning of Shier's brewery, at $300,000; insurance only $110,000, all in city offices.—The building stood 500 feet front by 100 feet deep with cellars 36 feet high. Arrangements were just completed to manufacture 500 bbls beer daily. An immense quantity of barley was in the building, and is still burning. Shier commences to re-build immediately.

La Mountain Safe.

TROY, N. Y. Oct. 3—9 P. M.

A despatch was received this evening from Prof. La Mountain, dated Ottawa, C. W. Oct. 3rd, as follows: "Lost all; landed three hundred miles north of Watertown in Canada, in the wilderness; we were four days without food; were brought out by Indian guides, &c. Please inform my wife."

[Signed] JOHN LA MOUNTAIN.

BOSTON, Oct. 3—9 P. M.

A private letter from Berne, Switzerland, states that Mr. Carpenter, of the bank note engraving house, of Philadelphia, has been very dangerously injured by being precipitated down a mountain pass.

DE LAVE FALLS FROM THE ROPE—ROCHESTER NOWHERE.—About 2 o'clock on Wednesday afternoon, says the Rochester *Union*, "M. De Lave commenced his rope walking over Genesee Falls, in presence of a few hundred people. He walked over and back successfully.

"A short time after, he appeared to undertake the feat of carrying a man upon his back. The man mounted upon his shoulders, with his feet suspended at the sides of De Lave, and he moved slowly out upon the rope. When near the center of the river, the rope began to sway, and it was clear that the feat was not to be accomplished. Presently De Lave saw that he was about to fall, and threw away his pole and caught by his arms. The man upon his back caught around his body and drew himself up on the rope. We hear, just as we go to press that they managed to reach the shore in safety upon the rope."

JUDICIAL DECISION.—We learn that Judge Noggle decided at the Walworth Circuit last week that mortgages issued for railroad stock are void, the companies to whom they were issued having no powers by their charters to exchange their stock for anything but money. The decision will probably be appealed to the Supreme Court.—*Janesville Gazette.*

POPULAR ESSAY
ON THE
DISEASES INCIDENT
TO
TRADES AND OCCUPATIONS.

IT IS OUR PURPOSE TO WRITE, AS briefly as possible, concerning the diseases and disorders incident to certain occupations including their causes, symptoms, and mode of cure. We shall do this in plain language, and in a straightforward way. Our purpose is two-fold—firstly, to give some curious facts not generally known; and, secondly, to bring more forcibly to view the ready relief at hand in RADWAY'S REMEDIES. We frankly avow that the trouble we are taking is a business transaction, meant to benefit both the public and ourselves.

The diseases springing from various trades arise either from the very nature of the occupations, from the materials handled or used, or from both causes. Scarcely any of these pursuits are necessarily unhealthy, but men will be as imprudent in their business as in their pleasure, and suffer for their neglect of precaution.

Let us look first at those who suffer from poisonous materials.

COPPERSMITHS; BRASS-FOUNDERS, BRAZIERS, AND PINMAKERS
from their manipulation of copper and its compounds, take into their system either the impalpable dust of its oxides or salts, or their fumes. The result is a copper disease, whose symptoms may vary more or less in violence, sometimes creeping slowly along until the system is utterly destroyed, or else opening an avenue to more apparent diseases. The victim to the copper disease notices, perhaps, on rising in the morning, a slightly acid taste in the mouth, a slight constriction of the throat, the tongue dry and parched, and, sometimes sickness at the stomach. He thinks he has caught cold, and, probably, takes some advertised expectorant, which leaves him worse than before. At times there comes an attack of colic. If dysentery is at all epidemic, he is very liable to be attacked, and his tormina and tenesmus, as the doctors call them, namely, his pain in the bowels and disposition to stool, are exceedingly violent. Often a thirst which he cannot account for, or a distended abdomen, or black stools, slightly streaked with blood, or an undefinable anxiety, is the commencing symptom, and is scarcely noticed. Cramps sometimes make their appearance in the limbs and stomach either alone or accompanied by some of the symptoms previously enumerated. A headache at the close of work, or during the day, is quite common. A preventive of these would be the use of a respirator, which checks the passage to the lungs or stomach of the dust or vapor, and gloves, to keep it from the pores of the skin. A generous diet should be used, the bowels kept open by moderate doses of *Radway's Regulating Pills*; a dose should be taken in the morning and evening of *Radway's Ready Relief*, and the use of *Radway's Renovating Resolvent* persevered in until the system is rid of the poison.

TYPE-FOUNDERS, PEWTERERS, PAINTERS, PLUMBERS AND GLAZIERS, AND WORKERS IN MANUFACTORIES OR SHOT-TOWERS,
are exposed to the lead disease. This, like the copper disease, may produce a series of insidious but scarcely noticed symptoms, ending sometimes in paralysis, or, more especially with painters, and white-lead makers in what is generally called painter's colic. These all, at times, will notice in their mouth, more particularly at rising, a sugary and slightly astringent taste, constriction of the windpipe, pain and uneasiness in the region of the stomach, and occasionally nausea, followed sometimes by vomiting.

COACH PAINTERS,
or those who use much vermilion, will have a tendency to diarrhea, for, unlike copper, this shows its effects more in the small intestines; and the bladder and urinary passages will be seriously affected, sometimes merely producing painful urination, and at others, bloody or high-colored urines. The *Regulating Pill* and the *Resolvent* must be mainly relied on, and the parties should never go to work on an empty stomach. For the more painful symptoms the *Ready Relief* will be necessary, and will by no means belie its name. It should be used internally and externally. In painter's colic, the *Regulating Pills* should be used to produce a free evacuation, and afterward more moderately, to keep up regular action; and from the very start, the *Ready Relief* given in full doses, in flaxseed or slippery-elm tea, or gum-water. The diet should be light, chiefly beef tea (not beef soup) or chicken broth, from which the fat has been skimmed. In paralysis, the persistent use of the *Regulating Pills*, with the *Ready Relief*, well and steadily rubbed into the affected limb or part for at least fifteen minutes, three times per day, and a generous, but digestable diet, will effect a cure. In all external applications the palm of the hand is the best thing to rub with, and a female hand, from its softness, should be preferred.

DYERS AND CALICO PRINTERS
are liable to several severe symptoms. Those who use muriate of tin sometimes perceive its effects in their systems. They observe an austere taste in their mouth, which is apt to turn into a well-defined metallic one, together with nausea, especially after rising from a meal. Their pulse is more small and hard, and beats more frequently than natural. One very common symptom is a frequency of stool, and diarrhea, for during some months this may be unattended by pain, and the consistency of the evacuations be normal. Twitching of the face and extremities is less common, but a more dangerous symptom, for unless promptly met, it may be followed by a paralysis of the parts attacked. The treatment in this is the same as in the copper disease, viz.: *Radway's Ready Relief, Regulating Pills* and *Resolvent*.

TINSMITHS
are sometimes affected in a manner similar to dyers, but in a less degree. Their attacks are rare. If peculiarly susceptible they may take the lead poison from the solder, but we never knew but one case of that kind. The acrid fumes of charcoal, in this and similar trades, sometimes produce inflamation of the bladder, which may be effectually combatted by the *Relief* and *Regulating Pills*.

PAPER-STAINERS AND TAXIDERMISTS,
occasionally suffer some most distressing symptoms—the former from the showy greens they use, and the latter from their constant handling of arsenic or the corrosive chloride of mercury. A fœtid breath is not uncommon, with a rather austere taste at times, considerable increase of saliva, or constriction of the lower part of the throat, which seems to extend into the breast, frequent hiccough, sometimes a fainting sensation, which comes and goes very suddenly, very black and offensive stools, or high-colored urine.—These are some of the symptoms which may occur separately or together. It is a curious fact that some people engaged at these occupations grow quite plump, and apparently enjoy the best of health, having especially a fresh and clear complexion, if, however, they go into any other employment, or refrain from work for some weeks, they are very apt to be visited with many or all of the above symptoms. In either case, the *Resolvent* should be used along with the *Regulating Pills*, the relief being resorted to in order to remove immediate pain or distress.

ELECTROTYPERS, GLASS-STAINERS, AND GLASS-ENAMELERS, MANUFACTURERS OF CHEMICALS, GOLD AND SILVER PLATERS, AND REFINERS,
are liable to many of the above symptoms. Electrotypers are especially liable to derangement of the bladder.

PRINTERS AND TYPE-FOUNDERS,
from the constant handling of type-metal, contract the effects of antimony. This is shown by the temporary paralysis of the fingers and hands, copious stools, cold night sweats, loss of strength, tenderness of stomach, bowels and throat. Sometimes, though drinking nothing but water, they feel a confused, semi-intoxicated sensation in the head. The treatment here is gentle purging with *Radway's Regulating Pills*, aided with the *Ready Relief* as a drink: when the disease has become chronic the *Renovating Resolvent* must be used as an adjuvant to the *Relief* and *Pills*.

MASONS AND BRICKLAYERS, ASSISTANTS, AND MORE ESPECIALLY LIMEBURNERS AND WHITE-WASHERS,
are constantly liable to vomiting, pains in limbs or temporary palsy, which latter sometimes becomes permanent. A milk-diet, mucilaginous drinks, and the use of the *Ready Relief*, will remove most of these symptoms, the *Resolvent* being also necessary where palsy supervenes. Sometimes costiveness follows, demanding the use of the *Regulating Pills*. The particles of lime in the eyes are very apt to produce conjunctivis, which will yield to an eye-wash made of sassafras pitch and water, into which the *Ready Relief* is put, in the proportion of six drops to every two table-spoonfuls, increased gradually to ten drops.—A dose or two of the *Regulating Pills* will materially assist in subduing this inflammation.

POWDER-MAKERS
are subject to heart-throbbing and heart-disease, with looseness of bowels; and both these and

THE MAKERS OF LOCO FOCO MATCHES
are liable to a very troublesome skin-disease, developing itself on the scalp, and sometimes in little patches, on the back of the thumbs or fore-fingers, or at the lower extremity of the spine, attended with itching, and scaling of the cuticle. In the former cases the *Regulating Pills* will be found sufficient, conjoined with the *Relief*; in the latter the *Resolvent* internally, with the *Relief* applied externally, diluted at first, but gradually increased to its full extent.—The *Regulating Pills* may be advantageously used, if indicated by the state of the stomach and bowels.

The effect of the alkaline contact is sometimes shown on

SOAP-BOILERS
in colic, convulsions and diarrhoea. The *Relief* will remove these. Lemonade should be used occasionally as a drink, and oranges or any ripe fruit slightly acid will be found to be a pleasant as well as a valuable adjuvant. Buttermilk answers a good purpose in these cases.

BLEACHERS AND OTHERS EXPOSED TO CHLORIDE OR OTHER FUMES OF ACIDS.
are apt to be attacked by pains in throat, stomach or bowels, excessive thirst and tenderness of abdomen. If the exposure is long continued at one time, there comes an acid taste in the mouth which leaves after the free air is inhaled; but this only occurs from sheer neglect. The symptoms named first give way to the *Ready Relief*. The addition of a slight dose of calcined magnesia will aid the action of the medicine slightly; but it is not absolutely necessary. The *Relief* will do its work well without it. The makers of loco-foco matches are sometimes troubled with the above symptoms, caused by the phosphorus which enters into the composition of the tips. A chronic inflamation of the glottis and tonsils is sometimes the result of this—coming on very insidiously, and if not checked extending to the windpipe, and even to the branching air-tubes of the lungs, called by the doctors the bronchiæ. When this commences it may be soon checked by a gargle made up of equal proportions of the *Ready Relief* and water.

We will next examine the cases of those who are affected by the use from irritating substances applied to the lungs and air-passages mechanically, with which, indeed, some of those mentioned previously might be classed.

CARPET AND OTHER WEAVERS, CHARCOAL DEALERS, BOILER MAKERS, WHITESMITHS, LOCKSMITHS, MACHINISTS, FURRIERS AND FUR DEALERS, GLASS CUTTERS AND DRILLERS, MATTRASS-MAKERS, TEA PACKERS, CUTLERS, FILE MAKERS, LAPIDARIES, SCULPTORS, STONE-CUTTERS, SEATERS, CARPET-BEATERS, GRINDERS AND POLISHERS, STREET-SWEEPERS, AND WOOL-PULLERS,
are subject particularly to bronchial affections and consumption, arising from the floating particles of irritating matter disengaged during the process in which they are engaged, and entering the air-passages. In all such cases *Radway's Ready Relief*, applied externally over the throat and chests, and the *Renovating Resolvent*, taken internally, will speedily effect a cure, and remove all traces of incipient consumption.

HATTERS
were formally included in the same position, but the advent of silk hats greatly diminished this tendency. A respirator is very necessary as a preventive, and, indeed, as an aid to cure. A silk handkerchief tied over the mouth and nostrils, when directly exposed, is as good as anything. A generous diet, vigorous, out-door exercise, and the use of the *Ready Relief* and *Resolvent* will soon restore the system to health.

FARMERS, HOSTLERS, GROOMS, AND ALL WHO HANDLE HAY,
are liable to the distressing, though rarely fatal complaint, asthma. The fumes of shellac produce the same disease, and hence hatters, and especially those who make sealing wax, are subject to it. Asthmatic people are proverbially long-lived, yet the complaint is by no means agreeable. The *Ready Relief* will palliate or remove the paroxysms of the disease, and the *Renovating Resolvent*, taken according to direction, will effect a cure.

BAKERS
from the action of the acid of fermentation on the skin of their hands and the almost constant exclusion of air from the pores by the flour, are subject to a troublesome itch. For this the *Renovating Resolvent* is a sure remedy, but the *Relief*, diluted and applied as a wash, will aid in effecting the desired end sooner.

Occupations wherein sudden mental emotions or protracted mental labor forms a part, are not only productive of brain disease but of a gradual *dissolution* or softening of the substance of the brain, whose approach may be told by neuralgia, either just below they eye or above the eyebrows, Asthma and costiveness, the latter the parent of piles, fistula, and similar troublesome complaints, are often the result. Hence it is that

LAWYERS, AUTHORS, EDITORS, TEACHERS, MERCHANTS, AND CLERGYMEN,
are affected so much with neuralgia and dyspepsia. The treatment in those cases is *Radway's Ready Relief*—internally and externally—the latter immediately ... after its application. *Radway's Regulating Pills* will, in a few hours, restore regularity to the bowels and liver. In certain cases of *Neuralgia* and other nervous affections, the *Resolvent* is requisite.

Exposure to heat characterizes some occupations thus,

IRON-FOUNDERS, FURNACE TENDERS, COOKS, AND KITCHEN-MAIDS,
are liable to asthma, costiveness, consumption, and inflamation of the spleen and liver. Enlargement of the liver is very common among all persons exposed to intense heat. Hence it is that liver complaints are so common in tropical climates. It need scarcely be said that the liver is a controlling organ, and that its derangement involves all the connecting organs.—The derangement of this viscus may be combatted successfully by the proper use of the *Relief* and *Regulating Pills*, which in the spleen disease also act with speedy good effect. For rheumatism, the *Ready Relief*, applied both externally and internally, is generally found sufficient, though chronic cases, such as may be combined with a scrofulous habit, will not yield without the *Renovating Resolvent*, which utterly roots out the disease, and restores the system to its normal state.

STEVEDORES, LONGSHOREMEN, PORTERS, DRAYMEN, AND ALL PERSONS WHO LIFT GREAT WEIGHTS,
are exposed to attacks of pleurisy. The *Relief* will break the violence of this, and with the *Regulating Pills* effect a cure.

BOATMEN, DECK HANDS, DITCHERS, DOCK BUILDERS, SEAFARING MEN, RAFTSMEN, PHYSICIANS, STAGE DRIVERS, TRUCKMEN,
and all exposed to sudden changes of weather, are liable to liver complaint and rheumatic affections, but more especially to spleen diseases.

SEAMEN,
through long abstinence from vegetable diet, are subject to *Scurvy*. The use of *Radway's Regulating Pills* and *Renovating Resolvent* is a sure antidote for this distemper. In all cases of *Ship Fever, Small Pox, Cholera* or *Yellow Fever, Radway's Ready Relief* and *Regulating Pills* are positive preventatives if taken before the attacks, and certain curatives if used after.

STAGE-DRIVERS
are liable to suffer from diabetes, for which the *Regulating Pills* and *Resolvent* should be used.

PHYSICIANS,
who are frequently much exposed, should never be without the *Ready Relief*, especially in visiting patients sick with contagious diseases. The head, hands and face thoroughly washed with it, and a fair dose of it taken internally just previous to the visit, will effectually prevent contagion. The power of the *Relief* in the matter of contagious diseases is really wonderful. It is a sure *preventive* to *Small Pox*, and in a well-known disease among cattle, known as *Black Tongue*, depending, no doubt, upon some contagious virus, yielded so readily to this remedy, that

DROVERS AND CATTLE DEALERS,
through the South and West, look upon it as a sovereign and infallible remedy in all such cases. Hence, too,

BOATMEN, PLANTERS OR FARMERS RESIDING IN LOW OR OCCASIONALLY OVERFLOWED GROUNDS!
will find the *Relief* a protection against *Fever* and *Ague* and other malarious diseases.

PRINTERS AND MINERS,
the former from standing so long at the case, and the latter from their cramped position in the mines, aided no doubt, by the dampness, have more or less troublesome affections of the joint occasionally.—These will always yield to the *Relief* and *Regulating Pills*, unless suffered to run too long, when the *Resolvent* may be required.

BUTCHERS
occasionally have life or limb endangered by a scratch or cut from a knife which has been used in dressing or opening an animal too long killed. Swelling of the part, itching and enlargement of the neighboring glands (kernels) follow. The wound should be washed, and a bread poultice (not bread and milk) moistened with some drops of *Ready Relief*, employed. The swelling should be bathed with the *Relief*, and the *Regulating Pills* used until the violence of the symptoms has abated. It may as well be mentioned here, that the making of a really good poultice is little understood. Stale bread should be rubbed into a fine crumb and placed in a soup-plate or large saucer, over which water, *while boiling*, must be poured. A similar plate or saucer is now to be placed over this, the two grasped firmly and held up sideways so that the water will drain out. The wet crumb is now to be rubbed into a pasty consistence with a spoon, placed on a rag at once, and applied to the part as warm as the patient will bear. As soon as it begins to harden around the edges a fresh one should be substituted, and thus a continual fermentation be kept up. This is the true poultice, which may be medicated by the *Relief* or others, if required.

BASKET-MAKERS, BOOT AND SHOE MAKERS, AND TAILORS,
from their sedentary habits, are subject to piles, anemia, tympanites, costiveness, hypochondria, diabetes, St. Vitus' dance, dropsy of chest, general debility, and, if the habit of the body tend that way, to apoplexy, or if not, to consumption and lung disease.—The treatment of these under our system is summary and effectual. For hypochondria, the *Ready Relief* and *Pills*; for dropsy and for St. Vitus's dance, the *Regulating Pills* and *Resolvent*; and for anemia, all three of the remedies. The treatment of the other affections have been already indicated.

The complaints of females engaged at various occupations are somewhat different from males, in consequence of their peculiarity of organization. It is true that those who live a sedentary life, or are occupied in pursuits which require them to stand or lean over their labor, are subject to similar diseases with those of the opposite sex in like occupation. Thus

FEATHER-DRESSERS, MILLINERS, PAPER-FOLDERS, PAPER-BOX-MAKERS, MATCH-DIPPERS
SEAMSTRESSES, AND THE LIKE,
are liable to costiveness, piles, and general debility. But what they have *most* to dread is the derangement of those secretions which nature has wisely given them for their health and comfort. They are particularly liable to hysteria, obstructed, painful, or irregular menstruation, whites, kidney weakness, nervous debility, womb disease, for all of which the *Relief* and *Regulating Pills* are confidently prescribed; or subject to chlorosis, to be removed by the use of the *Resolvent*, in addition to the other two remedies named.

Perhaps of all female occupations, that of

THE FACTORY GIRL
is liable to the most distressing symptoms, more especially when the ventilation of the work room is not perfect. Standing position, monotonous employment, and floating particles continually drawn into the air passages, all combine to weaken, depress and destroy. Yet, by prudence, care, and the use of *Radway's Remedies*, even the factory girl may bid defiance to death and the doctors—otherwise a very formidable partnership to fight.

For the present we draw our remarks to a close.—But it does not follow that all occupations should be abandoned wherein people are subjected to acid fumes, poisonous materials, irritating vapors or particles, intense heat, changes of weather, exposure, and the debilitating efforts of stationary or constrained positions. With ordinary prudence, out-door exercise, and the use, when indicated by symptoms, of Radway's celebrated remedies, their lives may not only be saved, but their systems fortified, and their comfort insured. *Radway's Ready Relief* and *Regulating Pills* will be found all-sufficient to prevent or cure, except in chronic cases, or those in which the system has been prostrated; and even there, *Radway's Renovating Resolvent* will speedily remove all obstacles to the kindly influence of nature, and thus restore the system to perfect health.

In truth, if the *Ready Relief* be kept constantly on hand, and used at the outset of every attack according to directions, it alone will be found enough to avert or combat all the deleterious efforts we have named, and may be considered the great shield of those who otherwise would be overcome by disease and death.

It is not so many years since Radway's Remedies have been introduced; for, the birth of that perfection of chemical and pathological science upon which they are based is itself comparatively new. The principles of their action are as old as humanity itself, but it remained for modern science to develop and apply them. How successfully this has been done, the overwhelming popularity and universal sale of Radway's Remedies show. The sovereign power of these blessings to the sick and suffering is indisputable; they are in themselves the entire vegetable materia medica; and they are rapidly superseding all the inert or poisonous drugs whose use and abuse has done so much to bring

"Death into the world, and all our woe."

The price of Radway's Remedies places them within the reach of every human being—the *Ready Relief* is sold for 25 cents, 50 cents and $1 per bottle; *Radway's Pills* 25 cents per box; *Resolvent* $1 a bottle.

Mr. Hobart for "Squatter Sovereignty."

Senator DOUGLAS, on his way to Washington last month, delivered a speech at Wooster, Ohio, in reply to Attorney General BLACK's pamphlet, criticising and demolishing his Squatter Sovereignty essay in *Harper*. In the course of his speech Senator DOUGLAS attacked the Attorney General very bitterly, accusing him of misrepresentation, false innuendoes, &c. Proceeding to show that "ninety-nine out of every hundred Democrats" in the Northwest, accept the DOUGLAS theory of "Squatter Sovereignty," in opposition to the views put forth by Attorney General BLACK, in behalf of the Administration, Senator D. said:

The gallant Dodge, who is fighting so glorious a battle on the same platform for the Governorship of Iowa, against the Abolitionists, will find this Black pamphlet ammunition in the hands of the enemy to be used against him and the Democratic party.

The indomitable Hobart, who leads the Democratic hosts as the nominee for Governor of Wisconsin on the popular sovereignty platform, must regard this Black pamphlet as calculated to help the enemy in their fight upon him and the Democratic party.

This declaration, in regard to Mr. HOBART, took the Administration men here by surprise, and gave them no little anxiety. It now appears that Senator DOUGLAS spoke by authority. At the Horicon discussion, Friday, Mr. HOBART formally recanted his old opinions as to the powers and duties of Congress, with regard to the question of Slavery, and announced his conversion to the DOUGLAS doctrine of "Squatter Sovereignty." We quote from his remarks, as reported for the *News*:

We entertain *no new doctrine or sentiment, but the same principle* that we have always entertained. In the present campaign we have declared certain principles in convention, and that declaration, we think, is entitled to respect, unless we trample upon the principles there announced, by declaring one thing and acting another. Where do we stand? *We have recently adopted a principle which was not in existence*, or, at least, was not entertained to any great extent in 1849—that instead of having Congress pass upon this question, we will pass it over to the exclusive control of the inhabitants of the Territories themselves.

Here, in one breath, Mr. HOBART denies that the Sham Democracy entertain any new doctrine, or principle; and in the very next asserts that they "*have* recently adopted a principle, which was not in existence, or, at least, not entertained to any great extent in 1849." Which of these two conflicting assertions does Mr. HOBART propose to stand by?

Again he says:—

Therefore, while I voted for the Wilmot proviso in 1849, *and would vote for it again* if we were to determine this question upon the idea that Congress was to decide the matter, yet I now take the ground of Popular Sovereignty, maintaining that it does not show any retrogression in our opposition to slavery, but is really an improvement.

Mr. HOBART has funny ideas of "improvement." In 1849 he voted for the Wilmot Proviso, "*forever prohibiting Slavery in all the Territories of the United States.*" He still professes to favor the Proviso, and declares that he would "*vote for it again,*" if he had not abandoned the principle that Congress has authority over the subject. But though he had just before said that he "entertained no new doctrine, or principle" on the subject, "he *now* takes the ground of Popular Sovereignty" i. e. that the inhabitants of the several territories have alone the right to pass upon the question of Slavery!" And this he calls "improvement" in his opposition to Slavery"! In the one case, Slavery *is forever prohibited* in all the Territories of the United States; in the other it is as positively permitted in all of them. Mr. HOBART's advance in political views is evidently crab-fashion.

It is not necessary, however, to pursue this matter further. A much more "artful dodger" than Mr. HOBART would be puzzled to reconcile his views and votes in '49 with his position now; or to make people believe, that "Squatter Sovereignty" is a surer barrier against Slavery than the old Jeffersonian Proviso, incorporated into and immortalized by the Ordinance of '87. How the BUCHANAN men will relish Mr. HOBART's declaration of war against the Administration, and his avowal of fealty to Mr. DOUGLAS, remains to be seen. We wait to hear from the *National* on this point.

Ex-Treasurer Janssen and his Sureties.

The *National* angrily explains that the "sharp practice" it alluded to, on the part of ex-Treasurer JANSSEN and his sureties, did not involve Mr. SILVERMAN, who was on the second bond. The *National* says:

It was not to be supposed that the second list of sureties knew anything about the defalcation of the Treasurer. If they had, they certainly, however "safe" it might have been, would not have taken even a risk of being "stuck" for $30,000, nor would they have signed at all for a dishonest and faithless man. So the piece of "sharp policy" was only on the part of the first list of sureties.

This will hardly answer as an explanation. There is no doubt that Mr. SILVERMAN was pretty familiar with the condition of JANSSEN's affairs when he signed his bond; but "a good stroke of policy," according to the *National*, had made it "perfectly safe" for him to do so. We repeat, that we do not believe the people will endorse this "sharp practice" of the Democratic leaders.

The *National* speaks of JANSSEN as "a dishonest and faithless man" and of his "sureties" as so many knaves. The Germans do not understand it. They think that JANSSEN was the innocent dupe of "dishonest and faithless" men around him; who abused their power and position to gain free admission into the State Treasury and help themselves to what they pleased.

MOSES M. STRONG NOMINATED FOR THE ASSEMBLY.—The Democrats of the Mineral Point Assembly District, in Iowa County, have nominated MOSES M. STRONG as their candidate for the Legislature; and thereupon MOSES occupies three columns of the *Home Intelligencer* in explaining his connection with the La Crosse Land Grant. Mr. STRONG denies having had anything to do with the so-called "corruption bonds," or with the Legislative disposition of the Land Grant; and as to the $25,000 in bonds which he received, Mr. STRONG says that it was no more than just compensation for five years' services rendered to the La Crosse Company.

An Untenable Position.

Mr. HOBART, speaking for himself and his party in this State, and abandoning his former doctrine that Congress had complete control over the Territories of the United States, now takes the position that the people of the Territories have *alone* the right to say whether Slavery shall be permitted, or prohibited within their borders. Mr. HOBART, in thus changing his ground, very truly remarks that "*that the principle is a new one*, which was not in existence or, at least, was not entertained to any extent in 1849." This new principle is the Squatter Sovereignty dodge of Senator DOUGLAS and *lays open every foot of United States Territory to the incursions of Slavery.* Yet Mr. HOBART, while announcing and advocating this latter-day doctrine, coolly tells his hearers that it is an "improvement" on the Wilmot Proviso, and a surer defence against Slavery-extension than that was! He must have a low estimate of the intelligence of the people, who makes such an assertion.

This Squatter Sovereignty doctrine, so formally introduced as an issue before the people of this State, is at once mischievous, untenable, against all precedent, at war with the whole practice of our Government and palpably unconstitutional. *The acts of every Congress of the United States up to the last one; the authority of every President of the United States, from* GEORGE WASHINGTON *to* JAMES BUCHANAN; *and the repeated decisions of the Federal Judiciary*, can all be cited against it. The argument is thus condensed by Attorney General BLACK in his reply to Senator DOUGLAS:

"A territorial government is merely provisional and temporary. It is created by Congress for the necessary preservation of order and the purposes of police. The powers conferred upon it are expressed in the organic act, which is the charter of its existence, and which may be changed or repealed at the pleasure of Congress. In most of these acts the power has been expressly reserved to Congress of revising the territorial laws, and the power to repeal them exists without such reservation. This was asserted in the case of Kansas by the most distinguished Senators in the Senate of 1856. The President appoints the Governor, Judges, and all other officers whose appointment is not otherwise provided for, directly or indirectly, by Congress.—Even the expenses of the territorial government are paid out of the Federal Treasury. The truth is, they have no attribute of sovereignty about them. The essence of sovereignty consists in having no superior.—But a territorial government, upon whose pleasure it is dependent for its very existence—in whom it lives, and moves, and has a being—who has made and can unmake it in a breath."

These points cannot be gainsayed and they show, incontrovertibly, that the Squatter Sovereignty doctrine of Senator DOUGLAS and Mr. HOBART is "a delusion and a snare."

Why Silverman was Removed as Sheriff.

LION SILVERMAN, the Democratic candidate for State Treasurer, was charged, by complaint before GOV. FARWELL, in 1853, with serious mis-conduct as Sheriff of Ozaukee county, and after a hearing of evidence and argument, was removed by the Governor. The following extracts from the Governor's decision are to the point:

His (Silverman's) arresting the said Weil, as such Sheriff; his orders to his deputy; his collecting of a large number of persons to assist him; his exhibiting a revolver pistol; his assertion of official control over the Register's office, and the books, and papers in the same; his forcible ejection of the said Weil and his Assistants from the office; his taking possession of the office, books, records and papers, himself; and retaining the same; his declaration of open resistance to the laws; and the disorderly and riotous conduct of himself, his deputy and persons summoned to his assistance,—all tend to make this a most marked and aggravated case of official malfeasance, justly demanding his removal from office.

* * * * * * *

Lion Silverman, as Sheriff of the county of Ozaukee, having been proved to have wilfully and forcibly resisted and violated a known law of this State, and used the authority and power of his office for that purpose, I consider him an unfit person to hold said office, and I therefore remove him therefrom.

LEONARD J. FARWELL.

A public officer who deliberately violates the laws of the State, and though sworn to keep the peace and maintain law and order, employs force to trample both under foot, does not deserve to be honored with an office of trust and responsibility, and is not fit to be the guardian of the people's money.

The Fusion Consummated in California.

The programme which was evidently, if not originally designed, was undoubtedly understood by the contracting parties soon after the respective nominations of the Republicans and the *Know-Nothing Douglasites*, were made, although not publicly consummated until within three days of the election. The San Francisco correspondent of the St. Louis *Democrat*, under date of Sept. 5th, says:

"Baker and McKibben are to receive the united support of the opponents of the National Administration, under an agreement of the State Central Committees, representing the two branches of the opposition."

So says the *National* of Sunday morning. But while condemning the action of the "*Know-Nothing Douglasites*" in California, the *National* is "hand and glove" with them in this State. It is supporting, under the thin and transparent veil of "Regular Democratic Nominations," a ticket made up of "Know-Nothing Douglasites," and a platform to match. Mr. HOBART, who heads the "Know-Nothing Douglasite" nominations, has just given in his formal adhesion to the DOUGLAS dogma of "Squatter Sovereignty." Is the *National* prepared to follow suit, and abandon the Administration to join "the Know-Nothing Douglasites?"

IMPROVEMENT OF THE CHINESE IN FIGHTING.—The recent victory obtained by the Chinese over the English and French, shows a wonderful advance in the tactics of war since their first encounters with the English, when they marched up against them without arms, and with gongs and other noisy instruments, thinking to frighten the foreigners.—If they can improve in the arts of peace and civilization as well as in those of war, they may yet become a great people, instead of gradually being exterminated before the march of civilization. In one respect they have made an improvement on the European mode of war, namely, the firing of blue lights and similar fireworks, which in the darkness of the night lighted up the whole vicinity, and enabled them to discover where their enemies were concealed, or in what direction they were fleeing. By this means they killed the largest number of the English, and took many prisoners, whose heads were no doubt immediately taken off.

RIOTS IN A LONDON CHURCH.—One of the English Churches, St. George's, in the East, has a Clergyman inclined to Puseyism, who has introduced a choral service, gay vestments and altar decorations, which do not meet the approbation of his parishioners, who however, instead of going elsewhere for spiritual instruction and leaving him to his own devices, resort to the unseemly practice of going to Church to hiss, hoot, yell and stamp at the ceremonies. The Church Wardens, the Bishop and Police have been successively appealed to, to stop the proceedings. The Church Wardens sided with the rioters. The Bishop wrote reproofs to both parties, but disclaimed the right to interfere, save as an adviser. The Police, as the last resort, will probably put an effectual and permanent stop to the affair.

BRITISH INDIA.—An officer of the British army writes, that that the 28th of July was kept throughout India as a day of thanksgiving by all orders of Christians. After 28 months of battle and massacre—after destroying a regular army of 100,000 men, and dispersing an irregular one of as many more, after losing and regaining 30 cities, and conquering four separate kingdoms, besides our own provinces, the British force in the North-west is three times as numerous as in 1857. That is a result which speaks volumes, if not for the persistent consistency of our race, at least of the favor with which Providence has attended all our efforts.

THE AURORA IN THE TROPICS.—By the way of Havana we have some later intelligence from Jamaica. The Aurora Borealis was witnessed in that island, it seems, for the first time, perhaps, since its discovery by CHRISTOPHER COLUMBUS. So rare is the phenomenon in those latitudes, that it was taken for the glare of a fire, and was associated with the recent riots. Up to the latest advices it had not entered into the imagination of the most astute to refer it to a celestial cause. It is described as magnificent and beautiful in the extreme.

EVEN SAILING.—The clipper ships Nightingale, Capt. PETERSON, and the Sweepstakes, Capt. MCGILL, both sailed from San Francisco, June 3, and both arrived at Hong Kong July 20, having been in sight of each other every day the whole passage.

The "Nut" Cracked—Mr. Spilane's Case Attended to?

The Milwaukee *News* publishes and the *Patriot* copies the following affidavit to show that Mr. Hastings exacted gold of those indebted to the State while paying out paper on demands upon the Treasury:

STATE OF WISCONSIN, }
COUNTY OF DODGE, } ss.

I, Michael Spilane, of the County of Dodge, and State of Wisconsin, being duly sworn do depose and say, that on or about the 15th day of February, A. D. 1858, I called at the office of the State Treasurer, Samuel D. Hastings, in the city of Madison, for the purpose of drawing from the State Treasury a small appropriation made to me by the Legislature, and was paid said appropriation in Wisconsin bank bills. At the same time, I wished to pay interest on school lands for Mr. Wells, Mr. Bardey, and Mr. Hollister, and was sent to the school land office for the necessary papers, which I procured and returned to the Treasurer's counter, and offered to pay them with the identical bills that they had paid me not one hour before, not doubting for one moment but that they would receive the same that they had paid out; but they refused to receive it, and said to me that I must first buy the gold, then they would receive it. Not being successful in getting gold, I had to return to Waupun without paying said interest, and the said parties were compelled to be at great expense in paying said interest, and also a discount for gold, and being farther to the expense of going to Madison to pay the same.

Further the deponent saith not.

MICHAEL SPILANE.

Subscribed and sworn to before me this 21st day of September, 1859.

EDWIN HILLYER,
Notary Public.

The following affidavit fully explains the matter, and shows that no blame attaches to Mr. Hastings or to any person in his employ in respect to it.

State of Wisconsin, }
County of Dane. } ss.

I, O. G. Scofield, of the city of Madison, and State of Wisconsin, being duly sworn, do depose and say, that I have been employed as Receiving Clerk in the office of the State Treasurer since the 5th day of January, 1853. On the 12th day of February, 1858, the same day that the appropriation of Mr. Spilane was paid, which he mentions in his affidavit published in the *Patriot* last evening, all the receipts in payment of interest passed through my hands, amounting to nearly $4,000—except a single item of $45.86 received by the Assistant Treasurer. The Treasurer does not personally receive these payments of interest, but such payments are almost always made to me and entered on my book, or to the Assistant Treasurer, who, in a few instances, has assisted in this branch of the duties of the office, when the business of the office has been greater than one could properly attend to. My instructions from the Treasurer at that time were, to receive nothing but coin from any one; and in case a person had a demand against the State, or an appropriation had previously been paid him, to accept the receipt of the demand the same as coin, and in every instance to receive the same that had been given in payment of the appropriation.

These instructions have been faithfully followed in each and every instance, and in no case, neither from friend or foe, stranger or acquaintance, has coin been demanded where currency had previously been given in payment of an appropriation, and I had a knowledge of the facts. The paying of appropriations is no part of my duties. The Assistant Treasurer always makes these payments. Therefore, when an appropriation is paid to a person, and at the same time he makes a payment of interest to the Receiving Clerk, I do not always know concerning the amount of the appropriation and what kind of money is paid out, unless the person making such payment of interest informs me at the time. This, no doubt, is the case of Mr. Spilane. If coin was demanded of him, he did not make known to me the fact of his having received currency, "not an hour before," in payment of an appropriation. If he had, I should have received currency to the amount of his appropriation, as I had been instructed by the Treasurer.

Further this deponent saith not.

The Death of Mr. Head.

We subjoin an account translated from a Three Rivers cotemporary, giving particulars of this most melancholy event:

From L'Ere Nouvelle, Three Rivers, Sept. 26.

It is with deep grief and pain that we are compelled to chronicle the dreadful accident which occurred at the *Grand Mere*, River Saint Maurice, *yesterday morning*.

His Excellency, the Governor General, Lady Head, Miss Head, Mr. John Head, with a distinguished party, left Three Rivers on Tuesday morning last to visit the River Saint Maurice as far as the Piles Falls.—The trip was entirely successful until yesterday morning, when Mr. John Head, son of His Excellency, was unfortunately drowned while bathing in the immediate vicinity of the Falls of the *Grand Mere*. The circumstances, as gleaned from our Mayor, Mr. Turcotte, who was present, are briefly these:

About half-past 7 yesterday morning the Hon. J. Browne, son of the Earl of Kenmare, accompanied by Mr. Head, left the camp to take their usual morning bath.—When they reached the spot where Mr. Browne had bathed the preceding morning, he observed that he had forgotten his towel. He returned in search of it, leaving Mr. Head to prepare for the bath. Before the former returned Mr. Head took the water and was immediately perceived by the voyageurs, who were on a hill close by, to struggle on his back in the water. They rushed in alarm to the spot, but the unfortunate young man had disappeared. Auguste Bellemare, one of the voyageurs dashed into the water and dived sixteen feet deep, but without success. Louis Decoteau, another voyageur, also dived, but with the same result. Boats and canoes were brought, a pole was planted, and Bellemare, who had since taken off his clothes, descended to the bottom by aid of the pole. On reaching the bed of the river he had to walk on the bottom for some seconds before succeeded in finding the body. When found, he took it under one arm, and with the other climbed to the surface, bringing the body with him.

These acts of daring courage were performed within 100 feet of the Falls of *La Grande Mere*, and in a place where the least faux pas would have led them over the falls. The body was but 12 minutes in the water, yet although every appliance and effort were used to revive it, from 8 o'clock until 12, it was without success. Thus we have to record the most unfortunate calamity that has ever occurred in this district. A shade of deep gloom is cast over our community by this sad event. When so late his excellency and suit were received with unbounded enthusiasm by our citizens, when we cordially hailed his presence among us, little did we dream that cheers of welcome would soon give way to a funeral dirge. Words cannot express the feeling of profound sorrow, which this untoward accident has produced in our midst. We can merely express our deep sympathy with His Excellency and family, in their bereavement, until the citizens of Three Rivers shall express their sorrow in a different form.

The body was brought down this morning in care of Capt. Retallack, M. S., and His Excellency, family and suite immediately followed in canoes. They embarked in the steamer *Advance* which was waiting at the mouth of the St. Maurice, and they proceeded direct to Spencer Wood, Quebec.

Mr. John Head was about 17 years of age, and was the only son of His Excellency.

The Hon. G. E. Cartier and the Mayor of Three Rivers have also accompanied His Excellency to Quebec.—*Montreal Gazette, Sept. 29.*

DESTRUCTIVE CONFLAGRATION.—On Monday night last our village was the scene of the only destructive fire that has occurred here. About three o'clock on Tuesday morning a fire broke out in the large warehouse of Messrs. Winchester, DeWolf & Co., Plow Manufacturers, and in a very short time, the building and contents were consumed. Besides about 800 plows which were stowed there, the building contained about four or five thousand dollars worth of lumber, three sugar cane Mills, several road scrapers, and other property, in all amounting to something over $14,000. The property was insured for $9,600, in the following companies:

Ætna Insurance Co.,	Hartford	$3,000
Hartford "	"	3,000
North American, "	"	2,000

Total		$9,600

Of this, $600 was on the building, and $9,000 on the property stored in it. This is a heavy loss, and Messrs. Winchester, De Wolf & Co. have the warmest sympathies of the entire community. We understand it is their intention to commence work again immediately, manufacturing plows, and it is hoped that those who have heretofore purchased of them will renew their orders, although they will not be filled as promptly as would have been the case had not this accident occurred.

That this fire was the work of an incendiary, there seems little reason to doubt, as there has not been any fire in the building, and there was no other building in proximity to it, from which the fire could have been communicated. We may state, safely, that the loss, though large, will not in any manner interfere with the business of the firm.—They will go ahead as though nothing had happened, and their factory will soon again be in full operation.—*Whitewater Register.*

AMERICAN AND BRITISH NAVAL FORCES ON THE PACIFIC.—The recent difficulty with regard to the San Juan Island occupation has called attention to the naval forces of the United States and Great Britain, on that Station. At the last accounts, there was a preponderance of British force in the neighborhood of Vancouver Island, they having 12 vessels, with 3,000 men; but it appears that the United States will soon be equal to it.—We have now there the following vessels:

	Tons.	Officers and Men.	Guns.
Flagship s. frigate Merrimac	3,200	560	40
Flag-ship s. frigate Lancaster*	2,360	555	19
Steam frigate Saranac	1,446	300	6
Steam gunboat Wyoming	997	100	5
Sailing sloop-of-war Cyane	792	230	20
Sailing sloop-of-war Levant	792	230	20
Sailing sloop-of-war Vandalia	783	240	20
Sailing sloop-of-war St Mary's	958	250	22
Total	11,816	2,350	151

*On her way to relieve the Merrimac.

To these vessels may be added the Warren, Saginaw, *en route*, and the Narragansett, which has been ordered there.

IMPROVEMENT IN CANAL BUSINESS.—We learn that there is a large increase in the quantity of goods and merchandize coming up the canal at present, as compared with any month of the season. Both the American and Western Transportation Companies have their full fleets of propellers in commission, and all of them take out full loads going West. The increase since the 1st of September, in westward bound freight, is at least 40 per cent. over any previous month. The A. T. Co. have 130 and the W. T. Co. about 150 boats in commission, and all are fully employed. They carry east an average of 165 tons, and their up cargoes average 80 tons.

There is every appearance, now, of a prosperous fall business on both the lakes and canal.—*Buffalo Courier, Sep. 30th.*

☞ CHRONIC DIARRHŒA.—We have in our possession the certificate of a respectable citizen, testifying that he was entirely cured of this dreadful disease by using BŒRHAVE'S HOLLAND BITTERS.

We shall take pleasure in showing the certificate to any person doubting this statement.

CAUTION!—Beware of Imposition. See that the name of Benjamin Page, Jr. & Co., sole proprietors Pittsburgh, Pa., is on the label of every bottle.

CITY AUCTION ROOM.

I HAVE THE FOLLOWING PROPERTY which I want to exchange for Dry Goods, or any other description of Goods:

First—A good Farm in Juneau County, Wisconsin; twenty-five acres under fence and in cultivation; a log cabin, such as we all were accustomed to live in when we first came to this country, twenty-five years ago; a good stream of water running thro' the entire farm; 40 acres of it is heavy timber. A large settlement surrounds the said farm.

Second—I have that large brown house, opposite Post Office on Wisconsin st., which contains about twenty-five rooms and rents for about one thousand dollars.

Third—I have two horses, one perfectly sound, kind and gentle; the other is somewhat foundered; but take the pair together and they make a good team for family use. Also, in connection, I have a carriage, buggy, wagon, sleigh, two sett harness, two side saddles, two mens' saddles, three bridles, whip, &c., &c.

Fourth—I have three hundred acres of school land in Marquette County, Wis. This land has been selected, as all other school lands. Now, all the above property I will exchange for Dry Goods, &c., or for any good city property. The said property is free from all incumbrances. CALEB WALL,

WHAT I LOVE.
BY JAMES BARTON.

I love to wander lazily,
When peeps the white moon hazily,
Above the clouds, which mazily
The arch of heaven drape;
When comes the soft breeze hushingly—
When flows the streamlet gushingly,
In which the fair moon blushingly
Surveys her beauteous shape!
Then sallying by mountains,
And dallying by fountains—
This, this is what I love.

I love to wander dreamily;
When glints the morning beamily,
When shines the bright sun gleamily
Upon the hills of blue!
When up the lark goes soaringly,
To "Heaven's gate" adoringly,
And pours his song imploringly,
As asking to pass through.
Then wandering by orchards,
And pondering by churchyards—
This, this is what I love.

The Oyster Discoveries in the Sound—Great Excitement—Sunday Dredging.

From the Norwalk, Conn., Gazette, Sept. 27th.

The whole line of shore from Rocky Neck to New Haven have been roused to the most intense excitement over the accidental discovery of a monster bed of more than monster oysters.

The bed lies a little over the center of the Sound, in a line bearing from Norwalk to Eaton's Neck light—and from a party who has dredged over it, we learn that the bed is certainly from one mile wide to two miles long. Other stories say three miles wide and ten long. But, we have taken much pains to get at the truth of the matter, and think the first statement is entirely reliable. The discovery was made week before last by a party of five Darien fishermen, whose names are William Wood, James Warring, Thomas Garlin, William Hoyt, and Alexander Stevens. These men were out fishing, and chanced to drop a "dredge" for an anchor over the bed, when on taking it up it was found to be filled with enormous bivalves, which led to further investigation and the result stated.

The beds seem to be almost inexhaustible and must contain many millions of bushels. We were shown samples of the oysters yesterday, as large as an ordinary garden spade, the meats from which looked more like beef tongues than the ordinary bivalves. There were on Sunday two steamboats and about one hundred and fifty sail vessels on the ground dredging nearly all day, mostly New York people, we are glad to hear. This, Monday, everything in the shape of a boat and oyster dredge has been brought into requisition, and our blacksmiths are diligently at work making more implements to take them with. There is no means of even approximating at a valuation of this discovery. Probable five millions of dollars is below the reality.

Nothing has ever equalled the excitement hereabouts among the fishermen and marine speculators since the great King's End oyster war some thirty years ago, when the long toms, &c., were brought out and charged to the muzzle to fire upon the New Haven marauders. This bed is in water from six to eight fathoms, and there is no telling what the effect is to be upon the oyster market or palates of epicures.

From the Stamford, Conn., Advocate.

The question with the fisherman now was how they should be able to profit by this good fortune without permitting others to become possessed of the secret. It was finally arranged that they should procure a good sized vessel, and prosecute their labors at night.—While these preliminaries were being settled, one of the party went to the City Island, and exhibiting some of the oysters, agreed with a gentleman extensively engaged in the oyster business, to discover to him the locality of the bed, for the sum of $500. As the story goes, this sum was paid to the man, and on the following day a fleet of thirty or forty oyster smacks were despatched to the ground, the day's fishing proving abundantly the extent and richness of the bed.

News like this was sure to spread like wildfire, and on Friday last there were probably not less than three hundred vessels on the ground, actively engaged in drawing in the oysters. Several boats from this place went out and succeeded in securing a handsome pile; one boat went out went out on Friday and returned on Saturday with over a hundred bushels; another small boat with a single man, caught sixteen bushels in half a day. The oysters being worth two dollars a bushel, makes such fishing as this profitable business.

It is supposed that the bed extends at least a mile square, and that the oysters are spread over the whole ground in a layer averaging two feet in thickness. The depth of water where they are found is about six fathoms.—If the accounts of the extent and richness of the bed are not exaggerated, the oysters may be estimated by millions of bushels.

HARDWARE, IRON, STEEL, NAILS, ROPE, AND TINMAN STOCK.

CASH SYSTEM.

HAVING ADOPTED THE CASH SYSTEM for the past year, seeing its advantages, particularly to our customers, we have concluded to continue selling our goods for Cash the coming year. We will sell in small or large quantities to suit customers, at such prices that we know are better than they can do elsewhere, taking quality into consideration.

We are confident the CASH SYSTEM is the only true one, and shall make increased efforts to do business on that basis, and no house can successfully compete with us.

RETAIL DEPARTMENT.

To this Department, we call the especial attention of all in the city, country, and places tributary to Milwaukee, as possessing advantages to any store in the West. Our stock is larger, the assortment more numerous, and quality of the goods, superior to that which you generally find in Hardware Stores.

Please call upon us, or send your orders, and we will endeavour to please you, both in prices and goods. TERMS CASH.

TINNERS' STOCK.

We keep constantly on hand a fine stock of TIN PLATE, COPPER, ZINC, WIRE, SHEET IRON, and everything used by Tinners. Our prices are low, and we are prepared to compete with any other place, CHICAGO NOT EXCEPTED. Please send in your orders with the cash, and the goods will be shipped without delay. apr18.

A BLOODLESS VICTORY!!!
1,000,000 BOXES SOLD OF
MOREHEAD'S
MAGNETIC PLASTER

THIS ENORMOUS QUANTITY OF this invaluable Remedy has been purchased by citizens of the United States during the short time it has been before the public. The reason for this extraordinary success is simply in the actual truth and value of the article. No one buys the MAGNETIC PLASTER without becoming its friend. It performs all that is promised, and carries with it its own recommendation. Truly this is a Victory—peaceful and bloodless—but we believe not less glorious than the triumphs of war, with its train of carnage and desolation.

The MAGNETIC PLASTER is undoubtedly the Greatest Strengthener and Pain Destroyer that Science has yet discovered. If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetises the Pain away, and

PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman, and the feeble infant. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor; all may have it, and all should have it who are sick, and suffering in any way.

FARMERS and PLANTERS should always be supplied with the MAGNETIC PLASTER. It will be the Good Physician in any household, ready at all times and at all times.

Put up in air-tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price, twenty-five cents per box, with full and plain directions. D. C. MOREHEAD, M. D.,
Inventor and Proprietor, 19 Walker St., N. Y.

SOYER'S SULTANA SAUCE.
For Hot or Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetising Sauce was invented by the renowned "SOYER," on his return from the Crimea, and since his decease is manufactured by CROSSE & BLACKWELL, London, from the original recipe. The manufacturers simply ask for a trial, convinced that it must add to the already large consumption, and that it will prove itself unequaled, either as a stimulant to the appetite or an aid to digestion.

Opinions of the London Press

"We recommend our correspondent to try Monsieur Soyer's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

"The Sultana's Sauce is savory, piquant, and spicy: a happy combination of flavors and essences worthy of the delicate taste of a Sultana, the genius of a Soyer, and the universal patronage of a discriminating Public."—*Observer.*

"A concentration of all the piquant resources of Turkey and Russia."—*United Service Gazette.*

"As a titilater of the appetite this Sauce stands alone. It is a most valuable adjunct to Fish, Flesh, or Fowl, and should be placed on every dinner table."—*Atlas.*

"The Sultana sauce is a most delicious zest."—*Morn Chronicle.*

DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

OLD LONDON DOCK

GIN,
A. M. BININGER & CO.,
(ESTABLISHED 1778.)
IMPORTERS,
No. 17 Broad Street, New York.

THIS AGREEABLE TONIC IS DESIGNED especially as a

Safe and Reliable Medicine for Family Use.

The public are assured that our LONDON DOCK GIN is a superior article, possessing all the virtues ascribed to it as a *Medicinal Beverage*, and deserving of their patronage, in preference to the suspicious decoctions emanating from irresponsible sources, and sold under various pretentious names.

The fact that our house, (established in 1778,) has attained a favorable reputation for the genuine character and purity of its Liquors, will, we trust, be a sufficient guarantee of the excellence of this article.

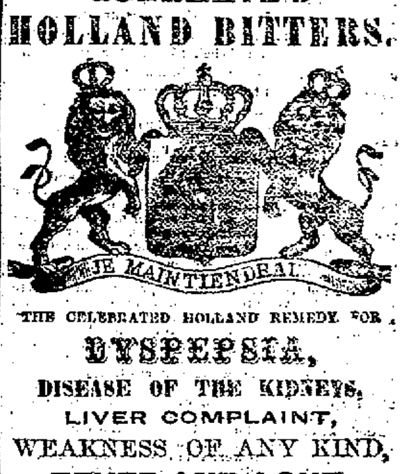

Put up in quart and pint bottles, in cases of one and two dozen each, with our name on the bottles, and a facsimile of our Signature on the wrappers.

BOERHAVE'S
HOLLAND BITTERS.

THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND AGUE,
And the various affections consequent upon a disordered
STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

READ CAREFULLY! The genuine highly concentrated Boerhave's Holland Bitters is put up in half pint bottles only, and retailed at ONE DOLLAR per bottle. The great demand for this truly wonderful Medicine has induced many imitations, which the public should guard against purchasing.

Beware of imposition! See that our name is on the label of every bottle before you buy.

SANFORD'S
Liver Invigorator,
NEVER DEBILITATES.

IT IS COMPOUNDED ENTIRELY FROM GUMS, and has become an established fact, a Standard Medicine, known and approved by all that have used it, and is now resorted to with confidence in all the diseases for which it is recommended.

It has cured thousands within the last two years who had given up all hopes of relief, as the numerous unsolicited certificates in my possession show.

The dose must be adapted to the temperament of the individual taking it, and used in such quantities as to act gently on the Bowels.

Let the dictates of your judgment guide you in the use of the LIVER INVIGORATOR, and it will cure LIVER COMPLAINTS, BILIOUS ATTACKS, DYSPEPSIA, CHRONIC DIARRHŒA, SUMMER COMPLAINTS, DYSENTERY, DROPSY, SOUR STOMACH, HABITUAL COSTIVENESS, CHOLIC, CHOLERA, CHOLERA MORBUS, CHOLERA INFANTUM, FLATULENCE, JAUNDICE, FEMALE WEAKNESSES, and may be used successfully as an ORDINARY FAMILY MEDICINE. It will cure SICK HEADACHE, (as thousands can testify,) IN TWENTY MINUTES, IF TWO OR THREE TEASPOONFULS ARE TAKEN at commencement of attack.

ALL WHO USE IT ARE GIVING THEIR TESTIMONY IN ITS FAVOR.

☞ MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

PRICE ONE DOLLAR PER BOTTLE.

SANFORD'S
Family Cathartic Pills,
COMPOUNDED FROM
PURE VEGETABLE EXTRACTS, AND PUT UP IN GLASS CASES, AIR TIGHT, AND WILL KEEP IN ANY CLIMATE.

THE FAMILY CATHARTIC PILL is a gentle but active Cathartic which the proprietor has used in his practice more than twenty years.

The constantly increasing demand from those who have long used the PILLS and the satisfaction which all express in regard to their use, has induced me to place them within the reach of all.

The Profession know well that different Cathartics act on different portions of the bowels.

The FAMILY CATHARTIC PILL has, with due reference to this well established fact been compounded from a variety of the purest Vegetable Extracts, which act alike on every part of the alimentary canal, and are GOOD and SAFE in all cases where a Cathartic is needed, such as DERANGEMENTS of the STOMACH, SLEEPINESS, PAINS IN THE BACK and LOINS, COSTIVENESS, PAIN AND SORENESS OVER THE WHOLE BODY, from sudden cold, which frequently, if neglected, end in a long course of Fever, LOSS OF APPETITE, A CREEPING SENSATION OF COLD OVER THE BODY, RESTLESSNESS, HEADACHE, or WEIGHT IN THE HEAD, all INFLAMMATORY DISEASES, WORMS IN CHILDREN OR ADULTS, RHEUMATISM, a great PURIFIER OF THE BLOOD and many diseases to which flesh is heir, too numerous to mention in this advertisement. DOSE, 1 to 3.

PRICE 30 CENTS.

THE LIVER INVIGORATOR AND FAMILY CATHARTIC PILLS are retailed by Druggists generally, and sold wholesale by the Trade in all the large towns.

MORE TO BE ADMIRED THAN THE
RICHEST DIADEM
EVER
Worn by Kings or Emperors.

What? Why a Beautiful Head of Hair.

BECAUSE IT IS THE ORNAMENT GOD *Himself provided* for our race. Readers, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled or shriveled, *harsh and dry*, or worse still, if sprinkled with gray, nature will lose more than one half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. *Read the following and judge.* The writer of the first is *the celebrated Pianist, Thalberg:*

DR. WOOD:— New York, April 19, 1858.
Dear Sir—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.
I am, dear sir, yours truly,
S. THALBERG.

"Drych a'r Gwyliedydd."
Welsh Newspaper office, 13 Nassau st.,
April 12, 1858.

PROF. O. J. WOOD:—*Dear Sir*,—Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair. CHARLES CARDEW.

New York, July 25, 1857.

PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers which were almost white have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who prespire freely. J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turn back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend its use to all.
Chicago, Ill., May 1, 1857. J. D. HOES.

The Restorative is put up in bottles of three sizes, viz: large, medium and small, the small holds half a pint, and retails for one dollar per bottle; the medium holds twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, forty per cent more in proportion and retails for $3.00 a bottle.

THE SENTINEL.

COMMERCIAL.

MONDAY, October 3d.

Money Matters.

Rates in the money market are without change.—The supply of exchange is better and the tendency is towards a lower price. The same we observe is the case at Chicago. There the current rate is now 2 per cent. The produce demand for money continues large without any probability of an abatement for some time; and discounts are confined to the offerings of strictly good business paper. Outside rates are 1@2 per cent a month. Gold still quoted at 1¼ per cent. with but little demand.

NEW YORK BANK STATEMENT.—The statement of the New York Banks for the week ending to-day, as reported by telegraph, shows the following change:

The wheat market to-day was steady, but not very active. The report of an advance at New York had no other effect than to impart a little more buoyancy to the market, without at all influencing prices. We note sales of about 20,000 bushels at the following prices: 79@80c for Extra Spring; 78c for Club; 76@77c for No. 1; and 74@75c for No. 2. The evening papers quote No. 1 at 75@77c, but we heard of no sales of this quality below 76c. Only a few sales of flour were made, and those indicate a slight decline. The supply of coarse grains continues light and prices are firm; oats bringing 30c; barley 52@55c; corn quoted at 70c; rye scarce and worth 58@60c. Highwines are still higher, selling to day at 23c. Freights firm, ½c higher, the rates on wheat to Buffalo being 7½c. A change in the wind would be likely to bring in a fleet of vessels in a very few days, and bring rates down again.

CHICAGO, SEPT. 30th.—Receipts: 4,759 bbls flour 101,014 bus wheat, 10,292 bus corn, 12,951 bus oats, 8,030 bus barley.

The *Press & Tribune*, of this morning says:

The wheat market to-day was more active, and closed ½@1c better. At the opening, buyers held off for lower prices; but the steamer's news caused a firmness on the part of holders, and the former had to advance their figures in order to supply orders. Winter wheat was very quiet, except No. 2 red, which was in good request, and advanced 1c. The day's transactions foot up about 90,000 bushels, at 92c for No. 2 white; 78@79c for No. 2 red; 76@77c for No. 1 spring; and 70@71c for rejected. After the close of 'Change there was an active demand for No. 2 Spring, at 75c, with however, little or no inquiry for No. 1 Spring. The flour market was less active to-day, on account of the firmness of holders. About 1,600 bbls changed hands, at $5 to $5.75 for fair to choice white winter; $4.12½ for common red winter; $4 to 4.27½ for spring extras, and $3.25 for Spring super—closing rates weaker. Corn was in fair demand and steady, with sales of about 5,000 bushels at 74 to 75c for No. 1 in store, and 75c for canal afloat. Oats were more active and 1c better.—About 18,000 bushels were sold at 30½c afloat; and 30c in store for No. 1. Rye in good demand at 62½c, at which about 6,000 bushels changed hands. Barley active and steady at 65c in store for No. 1. Timothy seed quiet at $2.08 and $2.12½. Highwines easier—nominal price, 26 to 26½c. Alcohol, 56c. Hides easier.

Freights to-day were easier. Several vessels were engaged at 7c for wheat to Buffalo, and 7½c from Kenosha to Buffalo.

MARINE INTELLIGENCE.

AT HALF-MAST.—On Saturday, the flags of the steamships *Detroit* and *Milwaukee* were at half-mast in respect to the memory of JAMES MCNEIL, the late head porter of the Freight Department here, who fell from the dock on Friday last and was drowned. McNeil was a faithful and industrious servant, and a good man, and all who knew him deeply regret his untimely death.

THE SCHOONER RESOLUTE OFF.—The schooner *Resolute*, which went ashore near the foot of Erie street in the late Equinoctial gale on account of the loss of her rudder, was got off on Sunday by the aid of two steam pumps, and the tug *Nellie*. Yesterday morning she was towed up the river, and is now on the dry dock in the Menomonee, undergoing repairs. At the time we saw the *Resolute* she was not sufficiently elevated to ascertain to what extent she was damaged. Her rigging escaped with little injury, and, as she lay on a sandy bottom, it is probable that her hull is but triflingly damaged. CALEB HARRISON had the job of getting her off, and, like every thing else in that line he has ever undertaken, it was cleverly done.

WOODRUFF'S PATENT SLEEPING CARS accompany all Night Trains on this route to New York and Boston.

All Trains for Summer are newly fitted with Ventilators and dusters.

Tickets can be had at all ticket offices in the West and at the Company's Office under the Revere House, corner Randolph and Dearborn streets, and at the Depot. GEO. M. GRAY, Gen'l Western Agent.

JOHN D. CAMPBELL, Gen'l Supt.

CITY OF BUFFALO, A. D. PERKIN, Comm'r, and WESTERN METROPOLIS, W. T. PEASE, Comm'r, form an Evening Line between Cleveland and Buffalo.

One of the above magnificent boats will leave the C & C Railroad Dock, Cleveland, every evening (Sundays excepted) at 8 o'clock, or on the arrival of the trains from the South and West, making SURE connection at Buffalo with the morning trains on the New York Central and Buffalo, New York & Erie R. R., for Niagara Falls, Rochester, Syracuse, Rome, Utica, Albany, Corning, Elmira, Oswego, New York and Boston.

It is useless to speak elaborately of the above boats, being already well known to the travelling public as in all respects First Class, Commodious and safe.

Thus rendering a summer trip to New York or any point east of Buffalo, the most desirable of any that could be planned.

Tickets can be had at the ticket offices in the West and at the Company's office, under the Revere House, corner Randolph and Dearborn streets, and at the depot. GEO. M. GRAY, Gen. Western Agent.

PITTSBURG, FT. WAYNE & CHICAGO R. R

NOW COMPLETED TO CHICAGO.

THIS NEW AND DIRECT ROUTE IS now open to New York, Boston, Pittsburg, Philadelphia, Baltimore, Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities; Cincinnati Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Railroad line between

CHICAGO AND THE EAST.

FARE AS LOW AS ANY OTHER ROUTE.

Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other routes.

Trains leave the depot on VAN BUREN ST., daily as follows:

7:15 A. M., Morning Mail and Express.

7:25 P. M., Night Express.

CHECKING BAGGAGE THROUGH

To Pittsburg, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with the Cleveland & Columbus R. R. to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable, both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

Tickets for sale at all the principal ticket offices at the West, and at the Company's office, No. 52 Dearborn St., opposite the Tremont House, Chicago, and at the Union Ticket office, No. 230 East Water St., Milwaukee.

IMPORTANT NOTICE

—TO—

MILLWRIGHTS AND OWNERS.

The Excelsior Water Wheel Co.

ARE MANUFACTURING A NEW KIND of Water Wheel, patented 11th May, and 14th December, 1858, by J. H. Fairchild, of Vermont. It involves an entirely new principle of obtaining power, and of controlling the water, by which we obtain a greater maximum power than is afforded by any other wheel now in use. Some of the advantages of this wheel are:—

1st. We obtain the ENTIRE WEIGHT of the water, and have the advantage of the full head and fall, from water to water.

2d. It surpasses all other wheels in velocity and power.

3d. It is perfectly under the control of the workmen, either when used to drive a large, or small amount of machinery, as the strength of the wheel is not diminished by reducing its motion; since it depends upon the WEIGHT of the column of water BELOW the wheel, which always remains about the same.

4th. It occupies less space than any other wheel—is placed inside the flume, near the SURFACE of the water, and is never affected by frost.

5th. The wheel is very durable, being made of iron, and can be put in in any place and attached to Saw Mills, Grist Mills, and machinery of all kinds, with LESS expense than any other wheel. The velocity of the wheel is such that the expense of gearing up is avoided for nearly all purposes.

Together with the advantages above stated, we are ready to warrant the Wheel to possess a power equal to the following figures, for each foot fall of water:

6 inch wheel	52.100 horse-power.
10½ "	78.100 "
12 "	99.100 "
13½ "	1.31.100 "
15 "	1.65.100 "
16½ "	1.87.100 "
18 "	2.36.100 "
19 "	2.65.100 "
20 "	2.95.100 "
22 "	3.53.100 "
24 "	4.29.100 "
25 "	4.80.100 "
26 "	5.25.100 "
28 "	5.96.100 "
30 "	6.81.100 "

Wheels of the above sizes make from 490 to 1000 revolutions per minute. When sold, are complete with gate, pully and shaft, so that the purchaser has only to place it in the flume, which can be done with less expense than any other wheel.

The Company have competent workmen, who will put them in any place in the country, at a reasonable rates. The Wheels can be afforded at a less price than any other wheel now in use.

W. B. STURGESS, Sec'y, Troy, N. Y.

CERTIFICATES.

MIDDLETOWN, Ct., Dec. 1, 1858.

Dear Sir—In answer to your favor asking my opinion of the Fairchild Patent Water Wheel that you put into my factory for me, I take great pleasure in stating that it has exceeded my expectation. I took out a Breast Wheel 16 feet in diameter, by 8 feet Buckets, and replaced it with one of "Fairchild's Patent" 15 inch Wheels, and it gives more power, with no greater amount of water. It runs as smooth and as steady as that of a steam engine. It has also the advantage of being very cheap and durable.

It operates under a 9 feet head and fall, and carries with equal regularity and steadiness a greater or less amount of machinery, "such as is necessary for the manufacturing of fire arms," whereas an increase of machinery upon my old Wheels would materially lessen the speed.

It is without doubt the best Wheel I have ever used, and my experience in Water Wheels extends over a period of 25 years. Any one interested in Water Wheels will be convinced of its superiority (however skeptical) if he will take the trouble of calling at my factory and see its performance.

I am, yours, respectfully,

EDWARD SAVAGE.

Mr. Savage writes me again under date of Jan. 6th, 1859. The Wheel continues to perform entirely well, and I am more and more pleased with it. It has not caused us a moment's delay since you were here.

SHELDON, Franklin Co., Vt., June 29, 1858.

Dear Sir—I have one of Mr. Fairchild's wheels in operation at my Machine Shop, which I can recommend to the public with perfect confidence, as possessing all the advantages which are claimed for it. The wheel which I am using is twelve inches in diameter. It gives more power, and runs more steadily than the best Breast Wheel, and which I have been before used, requiring less water under the same head and fall.

H. CARLISLE.

Many other testimonials from heavy eastern manufactories may be seen at my office, where the public are invited to call and examine this wheel, and where they will at all times be kept on hand to supply the demand. An 18 INCH wheel is now running the Planing Mill and other Machinery necessary for the manufacture of Sash, Doors and Blinds at the manufactory of J. M. King, Esq., (State Dam) Joliet, Ill., where any and all are invited to call and examine it under practical test, and with a motion of 700 revolutions per minute. THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR,

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.
